

```
import java.util.*;
public class sumDigit {
    public static void main(String[] args) {
        Scanner s = new Scanner(System.in);
        System.out.print("Enter the number : ");
        int n = s.nextInt();
        int sum=0;
        while(n>0){
            int rem=n%10;
            n=n/10;
            sum=sum+rem;

        }
        System.out.println("sum is "+sum);
    }
}
```
