

```
import java.util.Scanner;
public class Palindrome
{
    public static void main(String[] args) {
        Scanner sc=new Scanner(System.in);
        System.out.println("Enter a number");
        int num=sc.nextInt();
        int rem,rev=0;
        int copy=num;
        while(num!=0)
        {
            rem=num%10;
            rev=rev*10+rem;
            num=num/10;
        }
        if(rev==copy)
            System.out.println("Palindrome number");
        else
            System.out.println("Not a Palindrome number");
        }
    }
```
